Directors and Key Managerial Personnel

Directors

Dr. Vinod Juneja and Mr. Ajay Manglunia resigned as a Director of your Company with effect from July 20, 2018 and April 11, 2019, respectively. The Board places on record its sincere appreciation of the services rendered by Dr. Juneja and Mr. Ajay Manglunia during their tenure as the Directors of the Company.

In accordance with the provisions of Section 149 of the Companies Act, 2013, the Independent Directors have given a declaration that they meet the criteria of independence as provided in the said section.

Mr. Venkatchalam Ramaswamy retires by rotation at the forthcoming Annual General Meeting and, being eligible, offered himself for re-appointment.

Key Managerial Personnel

Mr. Manjeet Bijlani and Mr. Amit Pandey resigned as Chief Financial Officer and Company Secretary respectively with effect from April 18, 2019.

Mr. Shivaraman Iyer is appointed as the Chief Financial Officer of the Company with effect from May 13, 2019.

Number of Board Meetings held

During the year ended March 31, 2019, the Board met 5 times.

Remuneration Policy

The Board of Directors of the Company has framed a Remuneration Policy pursuant to Section 178 of the Companies Act, 2013. The Policy is annexed as an Annexure III to this Report.

Evaluation of the performance of the Board

The Board has framed an Evaluation Policy ("the Policy") for evaluating the performance of the Board, Executive Directors, Independent Directors, Non-Executive Directors and its Committees. Based on the Policy, the performance was evaluated for the financial year ended March 31, 2019. A meeting of the Independent Directors was held during the year under review.

The Policy inter alia provides the criteria for performance evaluation such as Board effectiveness, quality of discussion, contribution at the meetings, business acumen, strategic thinking, time commitment, relationship with the stakeholders, corporate governance practices, contribution of the Committees to the Board in discharging its functions, etc.

Internal Financial Controls

The Company has in place adequate internal financial control with reference to financial statement.

Audit Committee

In accordance with the provisions of Section 177 of the Companies Act, 2013, (the Act), the Board of Directors of the Company has constituted the Audit Committee. The Audit Committee of the Board of Directors of the Company comprises of the following Directors as its members:-

Mr. P. N. Venkatachalam	-	Independent Director (Chairman of the Committee)
Mr. S. Ranganathan	-	Executive Director
Ms. Shabnam Panjwani	-	Non - Executive Director

During the year ended March 31, 2019 the Committee met 5 times.

Nomination and Remuneration Committee

The Nomination and Remuneration Committee of the Board of Directors of the Company presently comprises of the following Directors:-

Mr. P. N. Venkatachalam	-	Independent Director
Mr. S. Ranganathan	-	Executive Director
Ms. Shabnam Panjwani.		

The constitution and terms of reference of the Committee are in compliance with the requirements of Section 178 of the Companies Act, 2013.

During the year ended March 31, 2019 the Committee met 2 times.

Corporate Social Responsibility Committee

In accordance with the provisions of Section 135 of the Companies Act, 2013 (the Act), the Board of Directors of the Company has constituted the Corporate Social Responsibility Committee (CSR Committee) presently comprising the following Directors as its members:

Mr. Venkatchalam Ramaswamy	-	Executive Director
Mr. P. N. Venkatachalam	-	Independent Director
Mr. S. Ranganathan	-	Executive Director

The terms of reference of the CSR Committee include the matters specified in Section 135 of the Act. The CSR Policy of the Company is uploaded on the website www.edelweissfin.com. Further details in this regard are provided in the Annexure IV to this Report.

During the year ended March 31, 2019 the Committee met 2 times.

Auditors

The Members of the Company had appointed M/s. S. R. Batliboi & Co. LLP, as the Auditors of the Company till the conclusion of the 29th Annual General Meeting of the Company to be held in the year 2023.

Secretarial Audit

The Board had appointed M/s. Manish Ghia & Associates, Company Secretaries, as Secretarial Auditor of the Company for the financial year ended March 31, 2019. The Report of the Secretarial Auditor is provided as an Annexure V to this Report.

Prevention of Sexual harassment of Women at Workplace

The Company has framed a Policy on Prevention of Sexual Harassment at workplace. There were no cases reported during the year under review.

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings/ Outgo

A. Conservation of energy

- i) the steps taken or impact on conservation of energy - The operations of your Company are not energy-intensive. However, adequate measures have been initiated for conservation of energy.
- ii) the steps taken by the Company for utilising alternate sources of energy - though the operations of the Company are not energy intensive, the Company shall explore alternative source of energy, as and when the necessity arises.
- iii) the capital investment on energy conservation equipments - Nil

B. Technology absorption

- (i) the efforts made towards technology absorption; The minimum technology required for the business has been absorbed.
- (ii) the benefits derived like product improvement, cost reduction, product development or import substitution; Not Applicable
- (iii) in case of imported technology (imported during the last three years reckoned from the beginning of the financial year); Not Applicable
 - (a) the details of technology imported;
 - (b) the year of import;
 - (c) whether the technology been fully absorbed;
 - (d) if not fully absorbed, areas where absorption has not taken place, and the reasons thereof; and
- (iv) the expenditure incurred on Research and Development: Not Applicable

C. Foreign exchange earnings and outgo

During the year under review, there were no foreign exchange earnings and outgo.

Other Disclosures

No disclosure is required in respect of the details relating to the deposits covered under Chapter V of the Companies Act, 2013, issue of Equity Shares with differential rights as to dividend, voting or otherwise, sweat equity shares, as there were no transactions on these matters during the year ended March 31, 2019. There were no significant or material order passed by any regulator or court or tribunal which would impact the status of the Company as a going concern and the operations in future. No material changes have occurred between the end of financial year i.e. March 31, 2019 and the date of the report affecting the financial position of your Company. The Company is in compliance with applicable Secretarial Standards issued by Institute of Company Secretaries of India.

Extract of the Annual Return

In accordance with the provisions of Section 92 of the Companies Act, 2013 and the Rules framed thereunder, the extract of the Annual Return in the prescribed Form MGT - 9 is provided in Annexure VI to this Report.

Whistle Blower Policy/Vigil Mechanism

The Company has established the Vigil Mechanism ('Whistle-blower Mechanism') which envisages reporting by directors and employees about their genuine concerns or grievances. The policy is uploaded on www.edelweissfin.com. The vigil mechanism is overseen by the Audit Committee.

Risk Management

The Board of Directors of the Company has framed and implemented a Risk Management Policy.

Directors' Responsibility Statement

Pursuant to Section 134 of the Companies Act, 2013 (the Act), the Board of Directors confirm that:-

- (i) in the preparation of the annual accounts, the applicable accounting standards have been followed;
- (ii) they have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at March 31, 2019 and loss of the Company for the financial year ended on that date;
- (iii) proper and sufficient care had been taken for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) the annual accounts have been prepared on a going concern basis; and
- (v) they have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

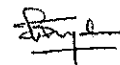

Acknowledgments

The Board of Directors wishes to place on record their appreciation for the continued support and co-operation extended by the Reserve Bank of India, government authorities, banks, and other stakeholders. Your Directors would also like to take this opportunity to express their appreciation for the dedicated efforts of the employees of the Company.

For and on behalf of the Board of Directors

FY2018-19

Management Discussion & Analysis

OPERATIONAL PERFORMANCE

Goldilocks 2017 gave way to a volatile 2018. Rise of trade tensions between the US and China impacted the business sentiments, while US Fed's monetary tightening contributed to the global liquidity tightening. This liquidity tightening amid relatively high levels of global debt worked to slowdown the growth momentum in the global economy in later part of 2018.

Against this backdrop of tightening global liquidity, and rising crude oil prices, India witnessed a reversal in capital flows and a balance of payments (BoP) squeeze, thus putting pressure on exchange rate. At the same time, default by a AAA rated entity in September 2018 further impacted the sentiments in the money markets, leading to a near-freeze at one point. Bond spreads shot up significantly and risk appetite among NBFCs weakened, with focus shifting to preserving liquidity rather than chasing growth. However, as BoP situation improved and INR stabilized towards end 2018, the RBI began to inject liquidity into the banking system. In addition, Fed's unexpectedly dovish tilt in January 2019 also supported flows to Emerging Markets. India received nearly USD 7bn of FII equity flows in Q4FY19.

However, liquidity tightening of 2018 and slowdown in global economy impacted India's growth momentum. Exports slowed down in a broad-based manner in line with slowdown in global trade, while liquidity tightening and NBFCs risk aversion impacted pockets of leveraged consumption such as cars, two wheelers and commercial vehicles. However, there are segments of the economy which are holding up quite well. For example, infrastructure/construction growth is running at a healthy pace helped by government spending on construction-related projects. Bank lending to infrastructure/construction has also been running strong and these trends are consistent with the robust cement demand.

On the monetary policy front, RBI has cut rates two times in 2019 so far, reversing the rate hikes undertaken in 2018. However, one area where more progress is needed is the transmission of the monetary policy, which is hampered by elevated credit-deposit ratio (CD) in the banking system. The latter is the result of the high growth in cash in circulation (CIC), which is acting as a drain on the banking system. The good news there is that CIC growth has started to subside and if that trend continues in the coming months, CD ratio may start to normalise, which in turn will facilitate the transmission of policy rate cuts.

On the fiscal front, central government revenues are running slower than projected growth rates both on direct as well as indirect taxes front although disinvestment receipts have marginally exceeded the budget estimates. In view of this, the central government started to slowdown the expenditure growth in a broad-based manner in 2HFY19. Overall central government fiscal deficit was maintained at 3.4% of the GDP.

Overall Outlook

While global growth has been moderating for last 6 months, there are early signs of stabilization. If this sustains and there is any rebound in global growth, India's exports are likely to benefit. On the domestic front, monetary policy transmission is the key monitorable. Also, the political rhetoric is shifting towards stimulating the rural economy which augurs well for the consumption pockets of the economy. Even banking sector NPA problems are largely behind us and government has made significant progress on PSU banks recapitalization.

Therefore, it is expected that economic activity should start to gain traction gradually during the course of FY20 though the first half may be muted. The downside risk arises from the way oil prices behave on how the US sanctions against Iran pan out, how the ongoing US China trade war ends and a sharper than expected slowdown in the global economy, which may hurt not only exports but also capital flows and sentiments.

INDUSTRY ANALYSIS AND DEVELOPMENTS

Commercial Credit Markets

FY19 has seen some improvement in banking sector's non-food credit growth - ~13% versus ~9% in FY18. As a result of high capex spending by government, there is a reasonable uptick in lending to infrastructure/construction pockets of the economy, while lending to the manufacturing segment is yet to see an uptick.

The developments over past few months (credit event in AAA rated entity) led to risk averseness towards NBFCs/HFCs as incremental liquidity became expensive. As a result, the banks benefitted from softened competition and there was visible market share shift towards them.

FY19 also saw better asset quality performance by banks with incremental stress showing signs of moderation. Now that implementation of Insolvency & Bankruptcy Code is stabilizing and has already resolved some high profile non-performing assets, resolution and turnaround should gain speed and credit growth should also improve in FY20.

NBFC Industry

The past few months have been tumultuous for NBFCs with a couple of events triggering fears of a liquidity crisis. In this backdrop, funding became expensive (especially for players dependent on the debt market with relatively shorter duration). As a result, risk appetite waned impacting growth of the NBFC sector as they focused more on liquidity management rather than asset growth.

That said, recovery following that has also been relatively swift (aided by regulator's support) and the situation is improving. The growing relevance of the NBFCs also highlighted the emphasis of risk management in the sector and most of NBFCs emerged stronger with better balance sheet strength.

Going forward, while the segment is not entirely out of woods, comfortable capital position, control on asset quality and strengthened liquidity management practices provide comfort. Within

NBFCs, well run business models with stronger balance sheets, prudent risk management practices and limited vulnerability to earnings will emerge stronger.

EFIL OVERVIEW

Edelweiss Finance & Investments Limited (EFIL) was incorporated as a Private Limited Company under the name and style of "Crossborder Investments Private Limited" on October 27, 1994 in the State of Maharashtra. The Company became the subsidiary of Edelweiss Financial Services Limited (EFSL) with effect from March 3, 2000. Subsequently, the name was changed to "Edelweiss Finance & Investments Private Limited" with effect from July 24, 2009. With effect from August 20, 2009, the status of the Company changed from private limited company to public limited company and the name changed to Edelweiss Finance & Investments Limited.

Vide Order of the Company Law Board dated January 17, 2007, the Registered Office of the Company shifted from the state of Maharashtra to the state of Andhra Pradesh and the Registrar of Companies, Andhra Pradesh by giving the Corporate Identity Number U67120AP1994PLC052372.

The Company is registered as a Non-Banking Financial Institution not accepting public deposits with the Reserve Bank of India. The Company is engaged in the business of investments and lending. Over a period of time the Company has acquired the status of Systemically Important Non-Banking Financial Company not accepting public deposits (NBFC-ND-SI).

Pursuant to the Scheme of Arrangement ("the Scheme") under Sections 391 to 394 and Sections 230 to 232 of the Companies Act 2013 sanctioned by the National Company Law Tribunal (NCLT), Mumbai Bench vide its order dated 5 July 2018, Edelweiss Finance & Investments Limited has demerged the Lending and Investment Business to Edelweiss Fininvest Private Limited, which is another Edelweiss group NBFC engaged in the business of lending and investments, and the Training Centre Business to Edel Land Limited, which undertakes real estate

activities with effect from 1 April 201, the Appointed Date. The Scheme has come into effect from 1 August 2018, the Effective Date.

We are part of the Edelweiss Group which is one of India's prominent financial services organization having businesses organized around three **broad business groups – Credit businesses** including Retail Credit, Corporate Credit and Distressed Credit, **Advisory businesses** including Wealth Management, Asset Management and Capital Markets, and **Insurance** including Life Insurance and General Insurance.

FINANCIAL PERFORMANCE HIGHLIGHTS

Consolidated Financial Performance

A summary of our consolidated FY19 financial highlights together with FY18 financials as per Ind AS is as under:

- Total Revenue Rs.1,365 million (Rs.1,504 million for FY18), down 9%
- Profit after Tax -Rs.4 million (loss) (Rs.127 million for FY18), down 103%.
- Networth Rs.1,848 million (Rs.1,889 million at the end of FY18)

As per the Scheme referred to above, the Lending business of the Company has been transferred to Edelweiss Finvest Private Limited and Training Centre Business to Edel Land limited.

As a result of the demerger of the aforesaid businesses of EFIL, its operations during FY19 were more or less restricted to Treasury Operations and its overall income, expenses and profits are lower in FY19 and are not comparable to the financials of FY18.

Agency Fee & Commission

Fund Based Revenue

Our fund-based businesses earned revenue of Rs.1,366 million for FY19 (Rs.1,504 million for FY18). Out of this, interest income was lower at Rs.1,411 million (Rs.1,591 million for FY18) because of demerger of Lending business as per the Scheme.

Agency Fee & Commission

Our agency fee & commission revenue was Rs.NIL for the year (Rs.Nil in FY18). The agency income is nil because EFIL did not undertake Credit and other advisory businesses as per the Scheme in FY19.

Operating Costs

Our total costs for FY19 was Rs.1,320 million (Rs.1,570 million in FY18), down 16%. Within our total costs, operating expenses were Rs.74 million in FY19 (Rs.79 million in FY18), down 7%. Our employee expenses were Rs.36 million in FY19 (Rs.132 million in FY18), down 73%. The interest expense were Rs.1,204 million (Rs.1,354 million in FY18), down 11% due to lower average borrowings during FY19.

Profit After Tax

Our Loss for FY19 was Rs.4 million compared to Profit after Tax of Rs.127 million for FY18.

Our Profit before Tax margin for FY19 was 3% compared to -4% for FY18. Our Profit after Tax margin for FY19 was negative compared to 8% for FY18.

Dividend

During FY19, the Company had not paid any dividend.

Balance Sheet Gearing

We believe that a strong and liquid balance sheet imparts unique ability to our company to be able to meet demands of our large clients, capture any episodic opportunities and be able to raise debt capital whenever required. EFIL has a net worth of Rs.1,848 million as at the end of FY19 compared to Rs.1,889 million at the end of FY18. Amount of debt on the Balance Sheet as on March 31, 2019 was Rs.23,632 million (Rs.18,086 million as on March 31, 2018), with a Gearing Ratio of 12.8 times. The gross Balance Sheet size at the end of FY19 was Rs.25,929 million (Rs.20,428 million at the end of FY18).

BUSINESS PERFORMANCE HIGHLIGHTS

As a result of the implementation of the Scheme referred to above, EFIL has discontinued its Credit business and now undertakes only Treasury Operations. Its Treasury Operations were subdued during FY19 because of a substantial rise in interest rates on Government Bonds during a part of FY19 and, as a result, its Treasury Income in FY19 is negative.

Strong Liquidity Position

EFIL recognises the need for a strong and liquid balance sheet which enables us easier access to market borrowings on the back of a strong credit rating. A liquid balance sheet simultaneously enables us to redeploy capital efficiently towards business opportunities that appear at short notice. The Government Securities amounting to Rs.13,679 million that we hold in our Investment Portfolio help us in managing liquidity as we are able to borrow on an overnight basis from CBLO market against these securities.

We continue to diversify our sources of borrowings as well as add liabilities commensurate with our assets profile.

Capital Adequacy Ratio

As per the Non Banking Financial Companies Prudential Norms stipulated by Reserve Bank, all NBFCs-ND-SI are required to maintain a minimum Capital to Risk-weighted Assets Ratio ("CRAR") of 15%. EFIL's CRAR as on March 31, 2019 was 31.50% with a Tier I Ratio of 24.86% compared to 42.07% and 33.35% respectively as on March 31, 2018.

OPPORTUNITIES

The macro economic developments in India as well as the rest of the world detailed earlier augur well for growth of financial services in India for firms like Edelweiss and offer immense opportunities in FY20 and beyond as under:

The financialisation of Indian household savings, low credit penetration and increasing consumption are already presenting newer opportunities for financial

services like retail credit which is one of our Group's major businesses and we are ready to capture a fair share of growth.

The projected growth in the Indian economy at around 7% in FY20 would continue to throw up vast opportunities for us to grow our businesses.

THREATS

While the opportunities landscape is promising, the following threats could dampen the growth of financial services sector in India:

- Slower than expected recovery of macro-economy, domestically as well as globally, increase in oil prices on the back of US sanctions against Iran or delay in revival of capex cycle can impede growth.
- If the current tight liquidity situation does not normalize soon, it could affect the normal growth of the NBFC sector.
- If the trade war between the US and China gets prolonged or intensified, it could impact the growth.
- While the monsoon is predicted to be normal this year, any unforeseen failure of the monsoon can hinder the recovery in rural economy.

OUTLOOK & STRATEGY

The coming year is an important one in India's 2025 journey to a GDP of USD 5 trillion. The economy has started regaining its old vigour. While global factors will always have a role to play as long as we are over-dependent on oil, our belief in the long-term India story continues to remain the same and we are confident that there will be growth opportunities all across in the India of the future.

In our markets, the liquidity situation is gradually improving and with inflation coming down, the outlook for interest rates for the coming year remains positive. We should expect a muted first half in FY20 with normalcy returning in the second half. We expect growth to come back in a more calibrated manner. The new normal will also need a tweak in the way NBFC industry does business. There will be an enhanced focus on the liability side of the balance sheet – something which was on the backburner in the last 3-4 years of growth. Not only

will the industry focus on more stable borrowing, improving the cost of this borrowing will be a key vector in value creation going forward.

ENTERPRISE GROUPS

The business group of EFIL is controlled and supported by a core of Enterprise Groups that provide consistent quality and rigour to key process functions. Various steps taken by us to improve efficacy of Enterprise functions are detailed below.

MANAGING RISK

The business activities of EFIL are exposed to various risks that are either inherent to the business or have their genesis in changes to external environment.

Risk management is integral part of business at Edelweiss. The good risk management practices of the Group have facilitated navigating through environmentally turbulent times and we share the same. While we have been managing various risks, a need for holistic approach to risk management led us to embrace yet another long journey towards **Enterprise Risk Management (ERM)** at the Group level. This we believe would strategically benchmark our practices to the best in class levels in ensuing years. Recognising the importance of embedding risk management at organisation level, Edelweiss has focused on making this every individual's agenda by creating first level of defence at individual level thus defining DNA of the organisation.

Financial services industry has been impacted in recent past with events relating to risks and governance. Taking clue from this, we have strengthened oversight on Risk focusing on all vectors of risk at entity level. To augment the Board Risk Committee at the Group level, **Enterprise Risk Management Council** comprising of senior management personnel has also been constituted. ERM council is creating framework to Assess, Avoid, and Manage and Mitigate risks across business verticals on a continuous basis. Our in-house "**Eleven-risk framework**" coupled with risk governance structure that includes business level risk team, Global Risk Group at the Corporate Centre, Global Risk Committee, ERM Council and the

Board Risk Committee protects Edelweiss and ensures that there are enough defences available to control all types of risk events.

It is the constant endeavour of Edelweiss to heighten risk awareness and effectiveness of risk management. We share the same ethos in regard to Risk as our parent group.

We have the business risk team within our company which ensures implementation of risk philosophy and practices of Edelweiss Group at business level. Our risk team also ensures that necessary action is taken to make certain that identified risks are adequately addressed.

Key Risks

EFIL deals in multiple asset classes and is thus exposed to various major risks as under:

Market Risk

EFIL deals in multiple asset classes in its credit business. Some of these asset classes, such as NCDs or Government securities may move in diverse directions due to a multitude of macroeconomic or external factors.

The asset liability mismatch and interest rate risk are regularly assessed. Liquidity requirements are closely monitored and necessary care is taken to maintain sufficient liquidity cushion for maturing liabilities and for any unforeseen requirements. We also ensure diversification in source of borrowing to reduce dependence on a single source. We also pro-actively modify our liabilities profile in sync with the changing assets profile to ensure that we do not carry any material asset liability mismatch.

Operational Risk

Operational risk framework of EFIL is designed to balance and check operational risk at key manifestation points. In addition to defining new processes, we constantly review all critical processes to proactively identify weak controls and strengthen the same.

Our paranoia about risk management has helped us to steer through environmental stress in recent times without a major impact.

INTERNAL CONTROL SYSTEMS AND INTERNAL AUDIT

As per the Companies Act, 2013, the companies need to ensure that they have laid down internal financial controls and that such controls are adequate and were operating effectively. Towards this end, we at EFIL have always adopted a risk balancing approach. EFIL has an Internal Control System, well commensurate with the size, scale, nature and complexity of our operations. The Company conducts its internal audit within the parameters of regulatory framework including preparation and execution of annual internal audit plan.

Internal Audit

Internal Audit follows Generally Accepted Audit Practices, Internal Audit Standards, analytical procedures etc. and ensures compliance with Section 138 of the Companies Act 2013 read with Rule 13 of the Companies (Accounts) Rules, 2014.

Internal Control

Our Internal Control Procedures include monitoring compliance with relevant matters covered under Section 134(5)(e) of the Companies Act 2013.

Internal Control Policies

Edelweiss Group has institutionalised a strong compliance culture across all the Business Group recognising that transparency and trust amongst all its stakeholders can be achieved only through this. We share the common resources of Compliance Group of Edelweiss that ensures compliance with all the applicable laws or policies.

INTERNAL ENVIRONMENT

Edelweiss group is a cross-cultural mosaic and our strength lies in our diversity everywhere, within teams and across businesses. Our diversity makes us a stronger organization by bringing in fresh ideas, perspectives, experiences and fostering a truly collaborative workplace. The sense of ownership each one of us has displayed over the years is a testament to the culture of entrepreneurship we have tried to foster in Edelweiss. We share the Edelweiss group HR philosophy.

Highlights of our HR initiatives in FY19 are as under:

- We ended FY19 with a total headcount of 31, down from 36 as of March 31, 2018, as we brought down our credit business activity as explained earlier.

A significant component of our value based culture is our commitment to acknowledge and appreciate efforts of our employees through recognition programs that honor exemplary risk management, collaboration, customer centricity, people development, technology and innovation.

Taking care of our people with a framework that is fair, collaborative, compliant and responsive, Edelweiss represents a winning combination of people, opportunities and development.

Amongst our much strength, we must count our performance appraisal system, which has helped to instil fairness and development orientation in the organisation. The process of Performance Appraisal is based on evaluations against pre-set and clearly documented goals and has stood the test of time.

INTERNAL ENVIRONMENT

In today's digital world, a customer has multiple options. Growth will accrue to organisations which succeed in giving a truly memorable customer experience. At Edelweiss, Customer Experience (CX) is regarded as a key pillar of business success and we have taken a problem-solving based approach to improving CX across its businesses, focusing on:

- Who is the Customer?
- What is their Need?
- How can we address that Need in the best possible way?

This was captured in our group motto "**Suno Samjho Suljhao**".

With this group philosophy in sight, we continued to build a culture of customer-centric thinking across EFIL. To drive this agenda, we have also instituted wide ranging corporate structure changes across the group. Through these efforts, we are responding to **evolving customer needs, and institutionalizing these processes across the organisation**, to ensure a superlative experience for all our customer segments, throughout the value chain.

Annexure II

Form AOC-2

(Pursuant to clause (h) of sub-section (3) of Section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014)

Form for disclosure of particulars of contracts/arrangements entered into by the company with related parties referred to in sub-section (1) of section 188 of the Companies Act, 2013 including certain arm's length transactions under third proviso thereto:

(Currency: Indian rupees in millions)

Details of contracts or arrangements or transactions not at arm's length basis:

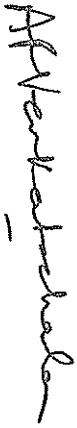

Sr. No.	Name(s) of the related party and nature of relationship	Nature of contracts/arrangements/transactions	Duration of the contracts/arrangements/transactions	Salient terms of the contracts or arrangements or transactions including the value, if any	Justification for entering into such contracts or arrangements or transactions	Date of approval by the Board	Amount paid as advances, if any	Date on which the special resolution was passed in general meeting as required under first proviso to section 188

II. Details of material contracts or arrangement or transactions at arm's length basis:

Remuneration Policy

Objective

The Companies Act, 2013 ('the Act') requires a Company to frame policy for determining the remuneration payable to the Directors, Key Managerial Personnel (KMPs) and other employees. While appointing the Directors, the Nomination and Remuneration Committee, considers qualification, positive attributes, areas of expertise and number of Directorships in other companies and such other factors as it may deem fit. The Board considers the Committee's recommendation, and takes appropriate action.

The objective of the Remuneration Policy (the Policy) of the Company is to provide a framework for the remuneration of the Independent Directors, Non-executive Directors, Managing Director/Executive Directors, KMPs, and other senior level employees of the Company.

The objective of this Policy is to ensure that:-

- i. the level and composition of remuneration is reasonable and sufficient to attract, retain talent required to run the company successfully;
- ii. relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- iii. remuneration to the Directors, KMPs and senior management comprises a balance of fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

Remuneration of the Independent Directors & Non- executive Directors

- The Independent Directors & Non-executive Directors are eligible for sitting fees for attending the meetings of the Board and the Committees thereof.
- The Independent Directors & Non-executive Directors are also eligible for commission, subject to limits prescribed under the Act and the Rules framed there under.
- The Independent Directors are not eligible for stock options.
- The Non-executive Directors (other than promoter Directors) shall be eligible for stock options.

Remuneration of the Managing Director & Executive Directors

- The remuneration of the Managing Director/Executive Directors is recommended by the Nomination and Remuneration Committee ('NRC') to the Board. Based on the recommendations of the NRC, the Board determines and approves the remuneration of the Managing Director/Executive Directors, subject to necessary approvals, if any.
- The remuneration paid to the Managing Director/Executive Directors is within the limits prescribed under the Act and approved by the shareholders of the Company. The remuneration structure includes fixed salary, perquisites, bonus, other benefits and allowances and contribution to Funds, etc.
- The Executive Directors (other than the promoter Directors) shall be eligible for stock options.

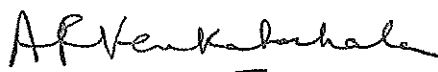

Remuneration of the KMP (other than Executive Directors) and Senior level employees

- The key components of remuneration package of the KMP (other than Executive Directors) and Senior level employees shall comprise of fixed salary, perquisites, annual bonus, other benefits and allowances and contribution to Funds, etc.
- They shall be eligible for stock options.

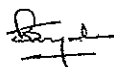

Policy Review

- The Policy may be amended as may be necessary.
- The NRC shall implement the Policy, and may issue such guidelines, procedures etc. as it may deem fit.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH 2019

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Edelweiss Finance & Investments Limited
Mumbai

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Edelweiss Finance & Investments Limited (CIN: U67120MH1994PLC286057), having its registered office at Edelweiss House, Off. C.S.T Road, Kalina, Mumbai - 400098 (hereinafter called 'the Company'). The Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the Company has, during the audit period covering the financial year ended 31st March 2019 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March 2019 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the Rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (Not applicable to the Company during the audit period);

- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011

- (a) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (Not applicable to the Company during the audit period);
 - (c) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (Not applicable to the Company during the audit period);
 - (d) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (Not applicable to the Company during the audit period);
 - (e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (f) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (Not applicable to the Company during the audit period);
 - (g) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not applicable to the Company during the audit period); and
 - (h) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Not applicable to the Company during the audit period);
- (vi) The Reserve Bank of India Act, 1934 and Credit Information Companies (Regulation) Act, 2005 and the directions, regulations issued by Reserve Bank of India thereunder and as applicable to Non-Banking Financial Companies, being laws that are specifically applicable to the Company based on their sector/industry.

We have also examined compliance with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Standards, Guidelines etc. mentioned above and in respect of laws specifically applicable to the Company based on their sector/industry, in so far as registration, membership, submission of various returns/information and other particulars to be filed with the Reserve Bank of India.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in

the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with the applicable laws, rules, regulations, standards and guidelines.

We further report that during the audit period the Company had obtained the approval of members under Section 42 of the Act by Special Resolution passed at the Extraordinary General Meeting held on 19th February, 2019 for issue of Non-convertible Debentures aggregating to Rs.4,000 crores on private placement basis in one or more tranches.

This report is to be read with our letter of even date which is annexed as Annexure-A and forms an integral part of this report.

'Annexure A'

To,
The Members,
Edelweiss Finance & Investments Limited
Mumbai

Our report of even date is to read along with this letter.

1. Maintenance of secretarial record is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records based on our audit.
2. We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provided a reasonable basis for our opinion.
3. We have not verified the correctness and appropriateness of financial records and Book of Accounts of the Company.
4. Where ever required, we have obtained the Management representation about the compliance of laws, rules and regulations and happening of events etc.
5. The compliance of the provisions of Corporate and other applicable laws, rules, regulation, standards is the responsibility of management. Our examination was limited to the verification of procedures on the test basis.
6. The Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of Edelweiss Finance & Investments Limited

Report on the Audit of the Ind AS Financial Statements**Opinion**

We have audited the accompanying Ind AS financial statements of Edelweiss Finance & Investments Limited ("the Company"), which comprise the Balance sheet as at March 31 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board Report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the

Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

~~Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.~~

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)() of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

1. The comparative financial information of the Company for the year ended March 31, 2018 and the transition date opening balance sheet as at April 01, 2017 included in these Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the predecessor auditor whose report for the year ended March 31, 2018 and March 31, 2017 dated May 02, 2018 and May 16, 2017 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.
2. The transition date opening balance sheet of the Company as at April 01, 2017 include the financial information on account of demerger impact of transfer of assets and liabilities to Edelweiss Finvest Private Limited and Edel Land Limited with effective date August 01, 2017 [refer Note 40 to the Ind AS financial statements]. The said financial information included in these Ind AS financial statements are based on financial information previously prepared in accordance with the Companies (Accounting Standards) Rules, 2006, audited by the other auditors, and have been ~~restated to comply with Ind AS Adjustments made to the financial information previously prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS, which have been audited by us.~~

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, no managerial remuneration was paid/payable for the year ended March 31, 2019 by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements – Refer Note 32.1 to the Ind AS financial statements;

S.R. BATLIBOI & CO. LLP

Chartered Accountants

- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 42.05 to the Ind AS financial statements;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our Report of even date

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment/ fixed assets are held in the name of the company. Refer Note 12 to the Ind AS financial statements.
- (ii) The verification of securities held for trading have been conducted on the basis of statement of holding received from the Depository Participants and clearing corporation holding statement at reasonable intervals by the management during the year.
- (iii) According to the information and explanations given to us and audit procedures performed, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees, and securities given in respect of which provisions of section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under clause 148(1) of the Companies Act, 2013, for the services of the Company.
- (vii)(a) Undisputed statutory dues including provident fund, income-tax, goods and service tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. The provisions relating to employees' state insurance, service tax, duty of custom, duty of excise, value added tax and sales tax are not applicable to the Company.
- (b) According to the information and explanations given to us and based upon the audit procedures performed, no undisputed amounts payable in respect of provident fund, income tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. The provisions relating to employees' state insurance, service tax, duty of custom, duty of excise, value added tax and sales tax are not applicable to the Company.
- (c) According to the information and explanations given to us and based upon the audit procedures performed, the dues of income-tax, service tax and cess on account of any dispute, are given below. The provisions relating to employees' state insurance, duty of custom, duty of excise, value added tax and sales tax are not applicable to the Company.

Name of the Statute	Nature of dues	Amount (Rs in million)	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act, 1961	Income Tax	0.14	AY 2009-10	Commissioner of Income Tax (A)
Income Tax Act, 1961	Income Tax	90.58	AY 2013-14	Commissioner of Income Tax (A)
Income Tax Act, 1961	Income Tax	63.15	AY 2016-17	Commissioner of Income Tax (A)
Finance Act, 1994	Service Tax	0.69	2011 to 2016	Commissioner Appeals-II, Mumbai

S.R. BATLIBOI & Co. LLP

Chartered Accountants

Finance Act, 1994	Service Tax	2.30	2011 to 2015	Commissioner Appeals-II, Mumbai
Finance Act, 1994	Service Tax	0.08	2012 to 2014	Commissioner Appeals-II, Mumbai

- (viii) In our opinion and according to the information and explanations given by the management and based upon the audit procedures performed, the Company has not defaulted in repayment of loans or borrowing to a financial institution or banks. The Company does not have any dues to government or debenture holders.
- (ix) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not raised any money by way of initial public offer or further public offer, hence not commented upon.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the company or no fraud / material fraud on the company by the officers and employees of the Company has been noticed or reported during the year.
- ~~(xi) According to the information and explanations given to us and records of the Company examined by us, no managerial remuneration has been paid / payable as per the provisions of section 197 read with Schedule V to the Companies Act, 2013. Accordingly, the provision of clause 3(xi) is not applicable to the Company.~~
- (xii) In our opinion, the Company is not a nidhi Company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management and audit procedures performed, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet and based upon the audit procedures performed, the Company has not made any preferential allotment or private placement of shares during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the company and, not commented upon.
- (xv) According to the information and explanations given by the management and audit procedures performed, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.
- (xvi) According to the information and explanations given to us and audit procedures performed, we report that the Company has registered as required, under section 45-1A of the Reserve Bank of India Act, 1934.

**ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF
EDELWEISS FINANCE & INVESTMENTS LIMITED**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of Edelweiss Finance & Investments Limited

We have audited the internal financial controls over financial reporting of Edelweiss Finance & Investments Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate ~~internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business,~~ including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

S.R. BATLIBOI & Co. LLP

Chartered Accountants

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Edelweiss Finance & Investments Limited

Notes to the financial statements

1. Corporate information:

Edelweiss Finance & Investments Limited ('the Company') a public limited company domiciled and incorporated under the provisions of the Companies Act applicable in India is subsidiary of Edelweiss Financial Services Limited. The Company was incorporated on October 27, 1994, and is registered with the Reserve Bank of India ('RBI') as a Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC-ND-SI).

The Company is primarily engaged in the business of trading and investing in government securities and fixed income securities.

2. Significant accounting policies

2.1 Basis of preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

For all periods up to and including the year ended March 31, 2018, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP). These financial statements for the year ended March 31, 2019 are the first financial statements of the Company prepared under Ind AS. Refer to note 40 for information on how the Company has adopted Ind AS.

These financial statements have been prepared on a historical cost basis, except for certain financial instruments such as, derivative financial instruments, and other financial instruments held for trading, which have been measured at fair value. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

2.2 Presentation of financial statements:

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in "Note 35-Maturity Analysis of assets and liabilities".

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and or its counterparties

Derivative assets and liabilities with master netting arrangements [e.g. ISDAs (International Swaps and Derivatives Association)] are only presented net when they satisfy the eligibility of netting for all of the above criteria and not just in the event of default.

A handwritten signature in black ink, appearing to be "S.R. Batliboi".

Edelweiss Finance & Investments Limited
Notes to the financial statements (continued)

2.3 Recognition of interest income and dividend income

2.3.1 Effective interest rate (EIR):

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVOCI. The EIR is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate a shorter period to the gross carrying amount of financial instrument.

The EIR is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial asset. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle including prepayments penalty interest and charges.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income.

2.3.2 Interest income:

The company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the EIR to the amortised cost (net of expected credit loss) of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis

2.3.3 Dividend income:

The Company recognised Dividend income when the Company's right to receive the payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

2.4 Financial instruments:

2.4.1 Date of recognition:

Financial Assets and liabilities with exception of loans and borrowings are initially recognised on the trade date, i.e. the date the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises borrowings when funds are available for utilisation to the Company.

2.4.2 Initial measurement of financial instruments:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.4.3 Day 1 profit and loss:

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain / loss on fair value changes. In other cases where fair value is based on models for which some of the inputs are not

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

2.4.4 Classification & measurement categories of financial assets and liabilities:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in carrying value of financial assets is recognised in profit and loss account.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in fair value of financial assets is recognised in Other Comprehensive Income.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL. The Company measures all financial assets classified as FVTPL at fair value at each reporting date. The changes in fair value of financial assets is recognised in Profit and loss account.

2.5 Financial assets and liabilities:

2.5.1 Amortized cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Edelweiss Finance & Investments Limited
Notes to the financial statements (continued)

2.5.2 Financial assets held for trading:

The Company classifies financial assets as held for trading when they have been purchased primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain / loss on fair value changes.

2.5.3 Investment in equity instruments:

The Company subsequently measures all equity investments at fair value through profit or loss, unless the management has elected to classify irrevocably some of its strategic equity investments to be measured at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

2.5.4 Financial liabilities:

All financial liabilities are measured at amortised cost except loan commitments, financial guarantees, and derivative financial liabilities.

2.5.5 Derivative financial instruments:

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and market risk.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss.

2.5.6 Debt securities and other borrowed funds:

The Company measures debt issued and other borrowed funds at amortised cost at each reporting date. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

2.5.7 Financial assets and financial liabilities at fair value through profit or loss:

Financial assets and financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when one of the following criteria are met. Such designation is determined on an instrument-by-instrument basis.

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis; Or
- The liabilities are part of a group of financial liabilities, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy;

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Company's own credit risk. Such changes are recorded in the Own credit reserve through OCI and do not get recycled to the

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

profit or loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

2.5.8 Financial liabilities and equity instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

2.6 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. The company didn't reclassify any of its financial assets or liabilities in current period and previous period.

2.7 Derecognition of financial Instruments:

2.7.1 Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or a part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either

- The Company has transferred the rights to receive cash flows from the financial asset or
- It retains the contractual rights to receive the cash flows of the financial asset, but assumed a contractual obligation to pay the cash flows in full without material delay to third party under pass through arrangement.

2.7.2 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised statement of profit and loss.

Edelweiss Finance & Investments Limited
Notes to the financial statements (continued)

2.8 Impairment of financial assets:

Simplified approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit loss (ECL) at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However, if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

General approach

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). ~~The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.~~

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of expected credit losses is a function of the probability of default (PD), loss given default (LGD) (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default (EAD), for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

Company categories its financial assets as follows:

Stage 1 assets:

Stage 1 assets includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 2 assets:

Stage 2 Assets includes financial instruments that have had a significant increase in credit risk since initial recognition. For these assets lifetime ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 3 assets:

Stage 3 for Assets considered credit-impaired the Company recognises the lifetime ECL for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

The ongoing assessment of whether a significant increase in credit risk has occurred for working capital facilities is similar to other lending products. The interest rate used to discount the ECLs for working capital facilities is based on the average effective interest rate that is expected to be charged over the expected period of exposure to the facilities.

Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

The expected credit losses on the loan commitment have been recognised together with the loss allowance for the financial asset.

The Company's product offering includes a working capital facilities with a right to company to cancel and/or reduce the facilities with one day's notice. The Company does not limit its exposure to credit losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Company's expectations of the customer behaviour, its likelihood of default and the Company's future risk mitigation procedures, which could include reducing or cancelling the facilities.

2.9 Collateral valuation:

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit / guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Company's balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a quarterly basis. However, some collateral, for example, securities relating to margin requirements, is valued daily.

To the extent possible, the company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market value are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, or based on housing price indices.

2.10 Write-offs:

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

2.11 Determination of fair value:

The Company measures financial instruments, such as derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either;

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by

selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments:

Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments:

Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 financial instruments:

Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

2.12 Operating leases:

The determination of whether an arrangement is lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

Lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, unless the increase is in line with expected general inflation, in which case lease payments are recognised based on contractual terms. Contingent rental payable is recognised as an expense in the period in which they it is incurred.

2.13 Earnings per share:

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

2.14 Retirement and other employee benefit:

2.14.1 Provident fund :

The Company contributes to a recognised provident fund which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

2.14.2 Gratuity:

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

~~Re-measurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.~~

Remeasurement are not reclassified to profit or loss in subsequent periods.

2.14.3 Compensated absences:

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

2.14.4 Deferred bonus:

The Company has adopted a Deferred Bonus Plan under its Deferred Variable Compensation Plan. A pool of identified senior employees of the Company is entitled for benefits under this plan. Such deferred compensation will be paid in a phased manner over a future period of time. The measurement for the same has been based on actuarial assumptions and principles.

2.14.5 Share-based payment arrangements:

Equity-settled share-based payments to employees and others providing similar services that are granted by the ultimate parent company are measured by reference to the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

2.15 Property, plant and equipment:

Property plant and equipment is stated at cost excluding the costs of day to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in profit or loss during the reporting period, in which they are incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the ~~useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation.~~ The estimated useful lives of the fixed assets are as follows:

Nature of assets	Estimated useful lives
Building (other than Factory Building)	60 years
Vehicles	8 years
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

~~For transition to Ind-AS,~~ the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.16 Intangible assets:

Intangible assets are recorded at the consideration paid for the acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any.

Intangibles such as software are amortised over a period of 3 years based on its estimated useful life. For transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Edelweiss Finance & Investments Limited
Notes to the financial statements (continued)

2.17 Impairment of non-financial assets:

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment is reversed subject to a maximum carrying value of the asset before impairment.

2.18 Provisions and other contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value ~~using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.~~

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

2.19 Income tax expenses:

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.19.1 Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.19.2 Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternative Tax (MAT) credit

MAT credit asset is recognized where there is convincing evidence that the asset can be realized in future. MAT credit assets are reviewed as at the balance sheet date and written down or written up to reflect the amount that is reasonably certain to be realised.

2.19.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.20 Cash and cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

2.21 Significant accounting judgements, estimates and assumptions :

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

2.21.1 Business model assessment :

Classification and measurement of financial assets depends on the results of the solely payments of principal and interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how Company's financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

2.21.2 Significant increase in credit risk:

ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.21.3 Fair value of financial instruments:

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

2.21.4 Effective Interest Rate (EIR) Method:

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle including prepayments and penalty interest and charges.

This estimation, by nature requires an element of judgement regarding the expected behaviour and life cycle of the instrument, as well expected changes India's base rate and other fee income, expenses that are integral part of the instrument.

2.22 Impairment of Financial assets:

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are based on a number of factors, changes in which can result in different levels of allowances

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

The Company's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- PD calculation includes historical data, assumptions and expectations of future conditions.
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life-time expected credit loss and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EAD and LGD
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It is Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

2.23 Impairment of Non-Financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exist, the company estimates the asset's recoverable amount. An asset's recoverable amount is higher of an asset's fair value less cost of disposal and its value in use. Where the carrying amount exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

2.24 Provisions and contingent liabilities:

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of its business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

2.25 Provisions for Income Taxes:

Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectation of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

2.26 Standards issued but not yet effective :

Ind AS 116 Leases:

Ind AS 116 Leases replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of ‘low-value’ assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. As the Company does not have any material leases, therefore the adoption of this standard is not likely to have a material impact in its Financial Statements.

Prepayment Features with Negative Compensation (Amendments to Ind AS 109):

The amendments to Ind AS 109 clarify that for the purpose of assessing whether a prepayment feature meets the SPPI condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason for prepayment. In other words, prepayment features with negative compensation do not automatically fail SPPI. These amendments are to be applied for annual periods beginning on or after April 1, 2019.

The application of these amendments is not likely to have a material impact on the Financial Statements.

Annual Improvements to Ind AS (2018):

Ind AS 12 Income taxes:

The amendments clarify that an entity should recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised the transactions that generated the distributable profits. This is the case irrespective of whether different tax rates apply to distributed and undistributed profits. These amendments are to be applied for annual periods beginning on or after 1 April 2019.

Plan Amendment, Curtailment or Settlement (Amendments to Ind AS 19):

The amendments clarify that the past service cost (or of the gain or loss on settlement) is calculated by measuring the defined benefit liability (asset) using updated assumptions and comparing benefits offered and plan assets before and after the plan amendment (or curtailment or settlement) but ignoring the effect of the asset ceiling (that may arise when the defined benefit plan is in a surplus position). The change in the effect of the asset ceiling that may result from the plan amendment (or curtailment or settlement) is determined in a second step and is recognised in the normal manner in other comprehensive income.

An entity is also now required to use the updated assumptions from this remeasurement to determine current service cost and net interest for the remainder of the reporting period after the change to the plan. In the case of the net interest, for the period post plan amendment, the net interest is calculated by multiplying the net defined benefit liability (asset) as remeasured under Ind AS 19 with the discount rate used in the remeasurement (also taking into account the effect of contributions and benefit payments to the net defined benefit liability (asset)).

Edelweiss Finance & Investments Limited

Notes to the financial statements (continued)

These amendments are to be applied to plan amendments, curtailments or settlements occurring on or after 1 April 2019. The application of these amendments is not likely to have a material impact on the Financial Statements

Uncertainty over Income Tax Treatments (Appendix C of Ind AS 12):

This Appendix sets out how to determine the accounting tax position when there is uncertainty over income tax treatments. The Appendix requires an entity to:

- determine whether uncertain tax positions are assessed separately or as a group; and
- assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings:

If yes, the entity should determine its accounting tax position consistently with the tax treatment used or planned to be used in its income tax filings.

If no, the entity should reflect the effect of uncertainty in determining its accounting tax position.

~~The Appendix is effective for annual periods beginning on or after April 1, 2019.~~

Hedging activities and derivatives

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are interest rate risk and equity index-risk. The Company's risk management strategy and how it is applied to manage risk are explained in Note 39.

Derivatives designated as hedging instruments

The Company has not designated any derivatives as hedging instruments.

Notes:

Edelweiss Financial Services Limited ("EFSL") the holding Company has granted an ESOP option to acquire equity shares of EFSL that would vest in a graded manner to Company's employees. Based on group policy / arrangement, EFSL has charged the fair value of such stock options, Company has accepted such cross charge and recognised the same under the employee cost.

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency: Indian rupees in million)

28 Employee benefits expense (continued)

a) Defined contribution plan - provident funds

In accordance with Employees' Provident Fund and Miscellaneous Provisions Act, 1952, employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which, both the employee and the Company contribute monthly at a determined rate. These contributions are made to a recognized provident fund administered by Regional Provident Fund Commissioner. The employees contribute 12% of their basic salary and the Company contributes an equal amount.

Amount of Rs. 3.38 million (previous year: Rs. 3.33 million) is recognised as expenses and included in "Employee benefits expense".

The Supreme Court has recently, delivered its ruling on the composition of basic wages for the purposes of deduction and contribution to the Employees Provident and Pension funds. The company, in the interest of its employees, awaits clarity on the complexities revolving around the application of the said order, the ambiguity reflected by the divergent views of legal experts and the response/direction from the authorities, including on representations made by an industry association in this regard.

b) Defined benefit plan - gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, a non-contributory defined benefit arrangement providing lump-sum gratuity benefits expressed in terms of final monthly salary and year of service, covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment in accordance with the rules laid down in the Payment of Gratuity Act, 1972.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at March 31, 2019. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

Reconciliation of Defined Benefit Obligation (DBO)

	March 31, 2019	March 31, 2018	April 01, 2017
Present Value of DBO at Start of the year	7.48	6.45	8.37

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency : Indian rupees in million)

31. Earnings per Share

Basic earnings per share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is calculated by dividing the profit attributable to equity shareholders of the Company with the weighted average number of equity shares outstanding during the period adjusted for assumed conversion of all dilutive potential equity shares.

		For the year ended March 31, 2019	For the year ended March 31, 2018
Net (loss) / profit attributable to Equity holders of the Company	(A)	(3.64)	126.93
Weighted average Number of Shares			
- Number of equity shares outstanding at the beginning of the year		3,435,332	2,655,020
- Number of equity shares issued during the year		-	780,312
Total number of equity shares outstanding at the end of the year		3,435,332	3,435,332
Weighted average number of equity shares outstanding during the year (based on the date of issue of shares)	(B)	3,435,332	3,056,801
BASIC AND DILUTED Earnings per share (in rupees)	(A / B)	(1.66)	41.52

The basic and diluted earnings per share are the same as there are no dilutive/ potential equity shares issued or outstanding as at the year end.

32. Contingent Liability & Commitment:

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The Company believes that the outcome of these proceedings will not have a materially adverse effect on the Company's financial position and results of operations.

32.1 Contingent Liability

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Taxation matters related to income tax for Assessment year 2009-10 and Assessment year 2013-14 in respect of which appeal is pending	0.60	0.60	0.60
Taxation matters related to service tax for the period from April 1, 2011 to March 31, 2016 in respect of which appeal is pending	3.08	-	-

32.2 The Company has received demand notices from tax authorities on account of disallowance of expenditure for earning exempt income under Section 14A of Income Tax Act 1961 read with Rule 8D of the Income Tax Rules, 1962. The company has filed appeal/s and is defending its position. Based on the favourable outcome in Appellate proceedings in the past and as advised by the tax advisors, company is reasonably certain about sustaining its position in the pending cases, hence the possibility of outflow of resources embodying economic benefits on this ground is remote"

32.3 Commitment

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
a) Uncalled liabilities on non-current investments	-	-	-
b) Estimated amount of contracts remaining to be executed on capital account and not provided for	-	3.98	0.06

33. Segment Reporting

The Company's main business is trading and dealing in Government Securities ("G-Sec") and fixed income securities. All other activities revolve around the main business. Further, all activities are carried out in India. As such, there are no separate reportable segments as per the pronouncements of Indian Accounting Standard (Ind AS) 108 on 'Segment Reporting'.

35. Maturity Analysis of assets and liabilities

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled. Derivatives (excluding embedded derivatives), securities held for trading have been classified to mature and/or be repaid within 12 months, regardless of the actual contractual maturities of the products. With regard to loans and advances to customers, the company uses the same basis of expected repayment behaviour as used for estimating the EIR.

37. Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements from its regulators and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Pillars of its policy are as follows:

- a) Maintain diversity of sources of financing and spreading the maturity across tenure buckets in order to minimize liquidity risk.
- b) Maintain investment grade ratings for all its liability issuances domestically and internationally by ensuring that the financial strength of the balance sheets is preserved.
- c) Manage financial market risks arising from interest rate, equity prices and minimise the impact of market volatility on earnings.
- d) Leverage optimally in order to maximise shareholder returns while maintaining strength and flexibility of balance sheet.

This framework is adjusted based on underlying macro-economic factors affecting business environment, financial market conditions and interest rates environment.

Regulatory Capital

The below regulatory capital is computed in accordance with Master Direction DNBR. PD. 008/03.10.119/2016-17 dated September 1, 2016 issued by Reserve Bank of India.

Particulars	As at March 31, 2019	As at March 31, 2018	As at 31 March 2017
Capital Funds			
Net owned funds (Tier I capital)	1,762.88	1,800.92	1,309.46
Tier II capital	470.70	470.70	470.70
Total capital	2,233.58	2,271.62	1,780.16
Total risk weighted assets/ exposures	7,092.27	5,399.27	873.05
% of capital funds to risk weighted assets/exposures:			
Tier I capital	24.86%	33.35%	149.99%
Tier II capital	6.64%	8.72%	53.91%
Total capital Funds	31.50%	42.07%	203.90%

No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

38. Fair Value measurement:

A. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques:

Level 1 - valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that company can access at the measurement date.

Level 2 - valuation technique using observable inputs: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 - valuation technique with significant unobservable inputs: Those that include one or more unobservable input that is significant to the measurement as whole.

Refer note 2.11 for more details on fair value hierarchy

B. Valuation governance framework

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions.

Where fair values are determined by reference to externally quoted prices or observable pricing inputs to models, independent price determination or validation is used. For inactive markets, Company sources alternative market information, with greater weight given to information that is considered to be more relevant and reliable.

The responsibility of ongoing measurement resides with the business and product line divisions. However finance department is also responsible for establishing procedures governing valuation and ensuring fair values are in compliance with accounting standards.

C. The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

As at March 31, 2019	Level 1	Level 2	Level 3	Total

D. Valuation techniques:

Government debt securities:

Government debt securities are financial instruments issued by sovereign governments and include both long term bonds and short-term Treasury bills with fixed or floating rate interest payments. These instruments are generally highly liquid and traded in active markets resulting in a Level 1 classification.

Debt securities:

Whilst most of these instruments are standard fixed rate securities, fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at the reporting date. The Company has used quoted price of national stock exchange wherever bonds are traded actively. In cases where debt securities are not actively traded, the Company has used CRISIL Corporate Bond Valuer model for measuring fair value.

Equity instruments and units of mutual fund:

The majority of equity instruments are actively traded on stock exchanges with readily available active prices on a regular basis. Such instruments are classified as Level 1. Units held in funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions. Such instruments are also classified as Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured at each reporting date at valuation provided by external valuer at instrument level. Unlisted equity securities are classified at Level 3.

Interest rate swaps:

Under interest rate swap contract, the Company agrees to exchange the difference between fixed and floating rate interest amount calculated on agreed notional principal. Such contracts enable the Company to mitigate the risk of changing interest rate. The fair value of interest rate swap is determined by discounting the future cash flows using the curves at the end of reporting period and the credit risk inherent in the contract. The Company classify the Interest rate swaps as level 2 instruments.

Exchange traded derivatives:

Exchange traded derivatives includes index/stock options, index/stock futures, company uses exchange traded prices to value these derivative and classify these instrument as level 1.

E. There have been no transfers between levels during the year ended March 31, 2018 and March 31, 2018.

G Valuation Methodologies of Financial Instruments not measured at fair value

~~Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above table and, as such, may differ from the techniques and assumptions explained in notes.~~

Short Term Financial Assets and Liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include: bank balances other than cash and cash equivalents, trade and other receivables, other financial assets, trade payables and contract liability without a specific maturity, borrowings (other than debt securities), subordinated liabilities, other financial liabilities. Such amounts have been classified as Level 2 on the basis that no adjustments have been made to the balances in the balance sheet.

39. Risk Management

39.A Introduction and risk profile

Risk is an inherent part of Company's business activities. When the Company extends a corporate or retail loan, buys or sells securities in market, or offers other products or services, the Company takes on some degree of risk. The Company's overall objective is to manage its businesses, and the associated risks, in a manner that balances serving the interests of its customers and investors and protects the safety and soundness of the Company.

The Company believes that effective risk management requires:

- 1) Acceptance of responsibility, including identification and escalation of risk issues, by all individuals within the Company,
- 2) Ownership of risk identification, assessment, data and management within each of the lines of business and Corporate, and
- 3) Firmwide structures for risk governance

The Company strives for continual improvement through efforts to enhance controls, ongoing employee training and development and other measures

39.B Risk Management Structure

We have a well-defined risk management policy framework for risk identification, assessment and control to effectively manage risks associated with the various business activities. The risk function is monitored primarily by the business risk group. The Company has also established a Global Risk Committee that is responsible for managing the risk arising out of various business activities at a central level.

Our risk management policy ensures that the margin requirements are conservative to be able to withstand market volatility and scenarios of sharply declining prices. As a result, we follow conservative lending norms. The Company centralises the risk monitoring systems to monitor our client's credit exposure which is in addition to the monitoring undertaken by the respective businesses.

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

39.C Risk mitigation and risk culture

The Company's business processes ensure complete independence of functions and a segregation of responsibilities. Credit appraisal & credit control processes, centralised operations unit, independent audit unit for checking compliance with the prescribed policies and approving loans at transaction level as well as our risk management processes and policies allow layers of multiple checks and verifications. Our key business processes are regularly monitored by the head of our business or operations. Our loan approval and administration procedures, collection and enforcement procedures are designed to minimise delinquencies and maximise recoveries.

At all levels of the Company's operations, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information.

It is the Company's policy that a monthly briefing is given to the Board of Directors and all other relevant members of the Company in the utilisation of market limits, proprietary investments and liquidity, plus any other risk developments.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture. Employees are expected to take ownership and be accountable for the risks the Company is exposed to. The Company's continuous training and development emphasises that employees are made aware of the Company's risk appetite and they are supported in their roles and responsibilities to monitor and keep their exposure to risk within the Company's risk appetite limits. Compliance breaches and internal audit findings are important elements of employees' annual ratings and remuneration reviews.

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency : Indian rupees in million)

39.D Types of Risks

The Company's risks are generally categorized in the following risk types:

Notes	Risks	Arising from	Measurement, monitoring and management of risk
39.D.1	Credit risk Credit risk is the risk of financial loss if a customer or counterparty fails to meet an obligation under a contract.	Arises principally from financing, dealing in Corporate Bonds, Investments in Mutual Fund, Equity, but also from certain other products such as guarantees and derivatives	Measured as the amount that could be lost if a customer or counterparty fails to make repayments; Monitored using various internal risk management measures and within limits approved by individuals within a framework of delegated authorities, and Managed through a robust risk control framework, which outlines clear and consistent policies, principles and guidance for risk managers
39.D.2	Liquidity risk Liquidity risk is the risk that we do not have sufficient financial resources to meet our obligations as they fall due or that we can only do so at an excessive cost.	Liquidity risk arises from mismatches in the timing of cash flows Arises when illiquid asset positions cannot be funded at the expected terms and when required	Measured using a range of metrics, including Asset Liability mismatch, Debt Equity Ratio Regular monitoring of funding levels to ensure to meet the requirement for Business and maturity of our liabilities. Maintain diverse sources of funding and liquid assets to facilitate flexibility in meeting our liquidity requirements of the Company
39.D.3	Market risk Market risk is the risk that movements in market factors, such as interest rates, equity prices and index prices, will reduce our income or the value of our portfolios	Exposure to market risk is separated into two portfolios: trading and non-trading.	Measured using sensitivities, detailed picture of potential gains and losses for a range of market movements and scenarios Monitored using measures, including the sensitivity of net interest income Managed using risk limits approved by the risk management committee

39.D.1 Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's Trade receivables and Loans. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In case the loans are to be restructured, similar credit assessment process is followed by the Company.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties/Groups (Single Borrowing Limit/Group Borrowing Limit) and for industry concentrations, and by monitoring exposures in relation to such limits.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company and market intelligence. Outstanding customer receivables are regularly monitored. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions

Derivative financial Instruments:

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet. With gross settled derivatives, the Company is also exposed to a settlement risk, being the risk that the Company honours its obligation, but the counterparty fails to deliver the counter value

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency : Indian rupees in million)

39.D.1 Credit Risk (continued)

Analysis of risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

The following table shows the risk concentration by industry for the components of the balance sheet

39.D.1 Credit Risk (continued)

Collateral held and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral. The main types of collateral obtained are charges over real estate properties, inventory, trade receivables, mortgages over residential properties, Securities. Management monitors the market value of collateral and will request additional collateral in accordance with the underlying agreement.

The tables below shows the maximum exposure to credit risk by class of financial asset along with details on collaterals held against exposure

	Maximum exposure to credit risk			Principal type of collateral
	As at March 31, 2019	As at March 31, 2018	As at April 01, 2017	
Financial Assets				
Cash and cash equivalents	1,050.24	152.96	743.24	
Bank balances other than cash and cash equivalents	53.33	50.02	50.00

19. Risk Management (continued)

19.D.2 Liquidity risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances.

Company has a Liquidity Contingency Policy in place to ensure various liquidity parameters are defined and tracked regularly. Liquidity Management Team is provided with update on expected liquidity shortfalls in Normal as well as Stress scenario.

To manage the stressed circumstances the Company has ensured maintenance of a Liquidity Cushion in the form of Investments in Government Securities and Mutual Funds. These assets carry minimal credit risk and can be liquidated in a very short period of time. A liquidity cushion amounting to 5-6% of the borrowings is sought to be maintained through such assets. These would be to take care of immediate obligations while continuing to honour our commitments as a going concern. There are available lines of credit from banks which are drawable on notice which further augment the available sources of funds. Funding is raised through diversified sources including Banks, Sub Debt etc to maintain a healthy mix.

Liquidity Cushion:

	As at March 31, 2019	As at March 31, 2018	As at April 01, 2017
Liquidity cushion			
Triparty Repo	3,908.00	-	-
Debt Securities	125.30	389.24	450.27
Other quoted investment	-	28.76	-
Total Liquidity cushion	4,025.30	418.00	450.27

Financing Arrangement

The Company had access to the following undrawn borrowing facilities at the end of the reporting year

	As at March 31, 2019	As at March 31, 2018	As at April 01, 2017
Committed Lines from Banks	50.00	50.00	50.00

Analysis of financial assets and liabilities by maturities

The table below summarises the maturity profile of the undiscounted cash flows of the Company's financial assets and liabilities as at 31 March. All derivatives used for hedging and natural hedges are shown by maturity, based on their contractual undiscounted payment obligations. Gross settled, non-trading derivatives are shown separately, by contractual maturity at the foot of the note.

Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group expects that many customers will not request repayment on the earliest date it could be required to pay and the table does not reflect the expected cash flows indicated by its deposit retention history.

39. Risk Management (continued)

39.D.3 Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, equity prices and index movements. The company classifies exposures to market risk into either trading or non-trading portfolios and manages each of those portfolios separately. All the positions are managed and monitored using sensitivity analyses.

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency : Indian rupees in million)

39. Risk Management (Continued)

39.E.1 Interest Rate Risk

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

ALCO is the monitoring body for compliance with these limits. ALCO reviews the interest rate gap statement and the mix of floating and fixed rate assets and liabilities. Balance Sheet Management Unit is in charge for day to day management of interest rate risk.

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Board has established limits on the non-trading interest rate gaps for stipulated periods. The Company's policy is to monitor positions on a daily basis and hedging strategies are used to ensure positions are maintained within the established limits.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at March 31, 2019 and at March 31, 2018.

39.E.2 Interest rate sensitivity

The Company does not have floating rate borrowing and CDO borrowings. Accordingly the Company's profitability will not be affected due to interest rate changes except for the Interest rate future agreements entered in by the Company.

	For the year ended		For the year ended	
	March 31, 2019	March 31, 2018	March 31, 2019	March 31, 2018
Impact of Interest rate swaps				
Increase / (Decrease) in basis points	25	25	-25	-25
Effect on Profit before tax	64.38	36.25	(64.38)	(36.25)
Effect on Equity				

39.E.3 Price Risk

The Company does not have investment in quoted equity shares or mutual fund units of equity oriented funds. Accordingly there is no effect on the Company's profitability or equity.

	For the year ended		For the year ended	
	March 31, 2019	March 31, 2018	March 31, 2019	March 31, 2018
Impact on Interest rate futres				
Increase / (Decrease) in equity price (%)	5%	5%	-5%	-5%
Effect on Profit before tax	(52.48)	(25.85)	52.48	25.85
Effect on Equity				

39.E.4 Prepayment Risk

Prepayment risk is the risk that the Company will incur a financial loss because its counterparties request repayment earlier or later than expected, such as fixed rate borrowings in the falling interest rate scenario.

Edelweiss Finance & Investments Limited

Notes to financial statements (continued)

(Currency : Indian rupees in million)

40. First Time adoption

These financial statements, for the year ended March 31, 2019, are the first annual financial statements the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2018, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2019, together with the comparative period data as at and for the year ended March 31, 2018, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at April 1, 2017, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at April 1, 2017 and the financial statements as at and for the year ended March 31, 2018.

Exemptions applied

The Company has prepared the opening balance sheet as per Ind AS as of April 1, 2017 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

De-recognition of financial assets and liabilities:

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1 April 2017 (the transition date).

Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

Past business combinations

The Company has elected not to apply Ind AS 103 Business Combinations retrospectively to past business combinations that occurred before the transition date of April 1, 2017.

Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has elected to continue with the carrying value of all of its plant and equipment, investment property, and intangible assets recognised as of April 1, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Share based Payments

The Company has applied the requirements of Ind AS 102 Share-based payment to equity instruments that are unvested as of the transition to Ind AS (April 1, 2017).

Classification and measurement of financial assets:

The Company has classified and measured the financial assets on the basis of facts and circumstances that exist at the date of transition to Ind AS.

40. First Time adoption (continued)

The reconciliations of equity and total Comprehensive income in accordance with Previous GAAP to Ind AS are explained below.

Reconciliation of Total Equity

Particulars	As at March 31, 2018	As at April 1, 2017
Total Equity / Shareholders' Funds as per Previous GAAP	2,308.40	3,681.66
Less: Impact of demerger [Refer note 42.01]	-	(1,929.80)
Adjustments:		
Fair valuation of securities held for trading	20.83	59.78
Preference shares issued to external parties	(470.70)	(470.70)
ESOP cost	37.77	30.61
DTA on fair valuation	(7.28)	(20.68)
Total effect of transition to Ind AS	(419.38)	(400.99)
Total Equity / Shareholders' Funds as per Ind AS	<u>1,889.02</u>	<u>1,350.87</u>

Reconciliation of Total Comprehensive Income for the year ended March 31, 2018

Particulars	Year Ended March 31, 2018
Profit as reported under previous GAAP	212.26
Ind AS adjustments increasing / (decreasing) net profit as reported under Indian GAAP:	
Fair valuation of securities held for trading	38.95
Preference shares issued to external parties - Dividend	55.24
Fair valuation of employee stock options	4.23
Remeasurement gain on defined benefit plans	0.31
Deferred tax adjustment on above	(13.40)
Total effect of transition to Ind AS	<u>85.33</u>
Net profit as per Ind AS	<u>126.93</u>
Other Comprehensive Income for the year (net of tax) - Items that will not be reclassified to profit or loss	0.31
Total Comprehensive Income as per Ind AS	<u>127.24</u>

Reference notes to reconciliation of Equity and profit & Loss

Remeasurements of post-employment benefit obligations

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Thus the employee benefit cost is reduced by Rs. 0.31 million and Remeasurement gains/ losses on defined benefit plans has been recognised in the OCI net of tax.

Share Based Payment

Under the previous GAAP, the cost of ESOPs were recognised using the intrinsic value method. Under Ind AS, the cost of equity settled share-based plan is recognised based on the fair value of the options as at the grant date.

Deferred Tax

Indian GAAP requires deferred tax accounting using the statement of profit and loss approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.

Valuation of Investments/Securities held for trading

Under Previous GAAP Investments in Shares, Debentures, Mutual fund units, Govt Securities and securities receipts were classified in Current Investment, Securities held for trading and long term investment based on intent of holding period and realisability Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments and Stock in trade were carried at lower of cost and market value. Under Ind AS, these investments are measured at fair value.

C) Qualitative disclosure for Derivatives

The Company undertakes transactions in derivative products in the role of a user with counter parties. The Company deals in the derivatives for balance sheet management i.e. for hedging fixed rate, floating rate and for hedging the variable interest in case of benchmark linked debentures. All derivatives are marked to market on reporting dates and the resulting gain/loss is recorded in the statement of profit and loss.

Dealing in derivatives is carried out by specified groups of the treasury department of the Company based on the purpose of the transaction. Derivative transactions are entered into by the treasury front office. Mid office team conducts an independent check of the transactions entered into by the front office and also undertakes activities such as confirmation, settlement, risk monitoring and reporting.

The Company has a credit and market risk department that assesses counterparty risk and market risk limits, within the risk architecture and processes of the Company. The Company has in place a policy which covers various aspects that apply to the functioning of the derivative business. Limits are monitored on a daily basis by the mid-office.

Over 5 years	-	-	-	-	-
Total	-	23,631.76	-	13,804.53	-

Maturity pattern of certain assets and liabilities as at March 31, 2018

Particulars	Liabilities			Assets	
	Deposit	Borrowings	Advances	Securities held for trading	Investments
1 day to 30/31 days	-	17,569.70	-	14,824.88	-
Over one month to 2 months	-	45.89	-	-	-
Over 2 months to 3 months	-	-	-	-	-
Over 3 months to 6 months	-	-	-	-	-
Over 6 months to 1 year	-	-	-	-	-
Over 1 year to 3 years	-	-	-	-	-
Over 3 years to 5 years	-	-	-	-	-
Over 5 years	-	470.70	-	-	-
Total	-	18,086.29	-	14,824.88	-

The asset-liability mismatch for the short term are primarily on account of the trade date accounting followed by the Company for recording the purchase and sale transactions of government securities whereby the sale proceeds aggregating to Rs. 6,283.79 million and Rs. 4,563.14 million are reflected as trade receivables as at March 31, 2019 and March 31, 2018 respectively.

Further, the Company had temporarily deployed its excess liquidity aggregating to Rs. 3,900.00 million as at March 31, 2019 in the Triparty Repo Lending. Accordingly, the Company is well poised to meet its contractual obligations over all the maturity due dates.

42.01 Scheme of Arrangement (Demerger):

i) Pursuant to the Scheme of Arrangement ("the Scheme") under Sections 391 to 394 and Sections 230 to 232 of the Companies Act 2013 sanctioned by the National Company Law Tribunal, Mumbai Bench vide its order dated 25 July 2017 ("the Order"), Edelweiss Finance & Investments Limited ("The Demerged Company" or "The Transferor Company"), has demerged the Lending and Investment Business to Edelweiss Finvest Private Limited (formerly known as Arum Investments Private Limited) ("First Resulting Company" or "EW Finvest"), which is another NBFC engaged in the business of lending and investments, and the Training Centre Business to Edel Land Limited ("Second Resulting Company" or "ELL") which undertakes real estate activities with effect from 1 April 2016 ("the Appointed Date"). The scheme has come into effect from 1 August 2017 ("the Effective Date"). Accordingly, the opening balance sheet of the Company as at 1 April 2017 has been prepared taking into account the effect of the said Order.

ii) In accordance with the Scheme:

On the Scheme becoming effective with effect from the Appointed date, the Company has transferred all the assets aggregating to Rs.10,214.42 million and Rs. 221.14 million and liabilities aggregating to Rs.8,737.81 and Rs.40.10 million as appearing in the books of Company related to lending business and training centre business respectively at their respective book value as on Appointed Date. Net assets transferred include:

Net assets transferred (A-B)	1,476.61	181.03	1,657.64

iii) The Scheme of arrangement is a tax neutral demerger per the provisions of Section 2(19AA) of the Income Tax Act, 1961 and accordingly, the assets and liabilities as on appointed date were transferred at cost. The resultant companies issued equity shares in consideration for the businesses acquired by them to the shareholders of the Company i.e Edelweiss Financial Services Limited. Edelweiss Finvest Private Limited issued 8,279,275 equity shares of Rs. 10 each at a premium of Rs 168.35 per equity share aggregating to Rs.1,476.61 million and Edelweiss Land Limited issued 18,103,500 equity shares of Rs. 10 each at par aggregating to Rs. 181.04 million in settlement of the consideration. Accordingly, the reduction in the net worth of the Company of Rs. 1,657.64 million has been reflected as a reduction in the securities premium account in terms of accounting treatment approved in the Scheme.

iv) On account of demerger, The Company has transferred profit/(loss) after tax from April 1, 2016 (appointed date) to March 31, 2017 to EW Finvest and ELL of Rs.286.00 million and Rs.(13.92) respectively, net Rs. 272.08 million has been adjusted to retained earnings.
